PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on experience in full-stack web development using React.js, Node.js, Express.js, and MongoDB. Strong foundation in Data Structures, Algorithms, Object-Oriented Programming, and database management, with experience building responsive web applications and REST APIs. Passionate about software development, problem-solving, and learning new technologies.

EXPERIENCE

Chandigarh University

May 2024 – Jun 2024

Summer Training Trainee – Web Programming (React JS)

Mohali, India

- Successfully completed a six-week in-house Summer Training program in Web Programming with a specialized focus on React JS.
- Gained practical exposure to frontend web development through structured learning, hands-on exercises, and implementation of React JS concepts.
- Developed a strong understanding of modern web programming practices and the use of React JS for creating interactive and responsive web interfaces.
- Strengthened programming, problem-solving, debugging, and frontend development skills through practical training and project-based learning.

PROJECTS

TaskFlow – Team Task Manager | MERN Stack, React, Node.js, Express, MongoDB..... 2026

- Developed a full-stack team task management platform using React, Node.js, Express, and MongoDB to manage projects, tasks, assignments, and team progress.
- Implemented JWT-based authentication with bcrypt password hashing and role-based access control for Admin and Member users.
- Built REST APIs for project and task management, including project creation, member assignment, task assignment, status updates, and dashboard statistics.
- Designed a responsive dashboard with Tailwind CSS featuring task tracking, project management, live statistics, and separate permissions for different user roles.

Binary Search Tree Visualization | Java, DSA, Java Swing..... 2025

- Built an interactive Java Swing application to visualize Binary Search Tree operations including insertion, deletion, and tree traversals.
- Implemented traversal and redraw logic to support step-by-step demonstrations and user-driven experimentation with tree structures.

Blog Website | HTML, CSS, JavaScript, WordPress..... 2025

- Developed a responsive blog platform with category-based content organization and improved navigation for a better reading experience.
- Applied accessibility and performance considerations to provide a consistent user experience across different devices.
- Optimized page loading through efficient asset usage and layout techniques.

TECHNICAL SKILLS

Languages: C++, JavaScript (ES6), HTML5, CSS3

Frameworks/Technologies: React, MySQL, WordPress, MongoDB, Node.js, Express, Git/GitHub

Core Areas: Data Structures & Algorithms, Object-Oriented Programming, Web Development

Relevant Coursework: Database Management, Software Methodology, Systems Programming, Computer Architecture

Developer Tools: VS Code, Git, ChatGPT, Claude, Gemini

Soft Skills: Leadership, Teamwork, Problem-Solving, Communication, Adaptability

EDUCATION

Chandigarh University

2022 – 2026

Bachelor of Engineering in Computer Science & Engineering

Mohali, India

New Green Field School

2020 – 2021

Class XII

Morden New Delhi Public School

South Delhi, India

Class X

2018 – 2019

ACHIEVEMENTS & EXTRACURRICULAR

Hackathons & Competitions

2022 – Present Chandigarh University

- Secured under 1000 rank in the Amazon Sambhav Hackathon.
- Runner-up at the University-level Hackathon organized by the Pandora Club.

Sports & Hobbies

- Active interest in playing Chess, Cricket, Swimming, and Taekwondo.
